The odds against winning is a ratio of 3:1, meaning

the odds against winning are 3 to 1. Thus, the probability of winning is 0.25,

or 25%.

3 & & 1: This mean

s that one player had a two-shot lead going into the 17th hole, and

won that hole

so they won by three and there was just a single h

ole to play. They played 17 because had their opponent won the last two holes, t

he match could have ended in a draw.
