No limit hold em tournaments can be divided into two distinct phases:

</p>

The early phase where blinds are small relative to the stack sizes.</p>

</p>

The late phase where blinds are large relative to the stack sizes.</p>

</p>

Winning tournament players know the best strategy for beating tournaments is to play solid poker during the early phase, then play aggressively in the

late phase. That's because in the late phase the blinds become significant and you

must aggressively steal blinds to survive.</p>

The late phase is where the majority of the chips are won. It is dominated

by all-in raises designed to steal the blinds. Learning how to play well in

the late phase is the single most important skill you must have to win poker tournaments.</p>
