>

<p>Pop music is a genre of popular music that originated in its modern form during the mid-1950s in the United States and the United Kingdom.[4]

During the 1950s and 1960s, pop music encompassed rock and roll and the youth-oriented styles it influenced. Rock and pop music remained roughly

synonymous until the late 1960s, after which pop became associated with music

that was more commercial, ephemeral, and accessible.</p>

<p>Identifying factors of pop music usually include repeated chor

uses and hooks, short to medium-length songs written in a basic format (often th) Tj T\* BT

ced to. Much pop music also borrows elements from other styles such as rock, urban, dance, Latin, and country.</p>

<p>The terms popular music and pop music are often used interchangeably, a

lthough the former more accurately describes all music that is popular

and includes many disparate styles. Although much of the music that appears on record charts is considered to be pop music, the genre is distinguished

from chart music.</p>
