Bookies set odds for sporting events or other compet

tions that attract betting action. The odds are designed to encourage betting &

on both sides of an event, ensuring that the bookie will make a profit

regardless of the outcome. They do this by adjusting the payout odds

to favor the less likely outcome, thus ensuring a profit even if the majority &

of bets are placed on the more likely outcome.

Bookies also collect a commission, known as the "vig" or "juice," on

losing bets. This commission is typically around 10

% of the total amount wagered. By collecting this fee on all losing

bets, bookies are able to generate revenue even if they pay out a significant amo

unt of money to winning bettors.

Finally, bookies may limit the amount of money paid out to w

inning bettors. This is done to manage risk and ensure that the booki

e remains profitable. By limiting the payout to winning bettors, bookies are abl

e to protect themselves from large losses in the event of a significa

nt upset or unexpected outcome.

In summary, bookies make money through a combination of setting

odds, collecting commissions, and limiting payouts to winning bettors. These

strategies allow them to generate revenue and remain profitable over

the long term.
