<p></p><p>Football corners predictions is one of the fairly new tips offered by tipsters and by us. Some say it's luck 🛋 predicting corners in a football game, but we at AFootballReport find in corners very profitable markets especially in live events 🛋 when odds go very high as the game evolves.So how do we predict corners? Of course as any other football 🛋 prediction and corners are related to a number of pre-match and team factors. First of all we should see the 🛋 type of game we're looking for or the type of game we want to predict. Is it a game with 🛋 a strong favorite or just two equally strengthen teams that play. If it's a game with a strong favorite probably 🛋 we should pay attention to the corners race predictions as strong favorites always keep the ball in possession more than 🛋 the other teams and create more chances as they push forward almost during the whole game. Keep in mind in 🛋 live events that if the score is in favor of the favorite team then this team would not be so 🛋 motivated to create chances and would probably win less corners than in a draw event or from behind.</p>

<p>Second thing we 🛋 should use when making our corners tips is to see the teams   lineups and tactic for the upcoming game. Target 🛋 teams with more offensive tactics and teams that use wingers heavily in their attacks. For example, some good wingers for 🛋 the home team could easily produce more than 10-20 crosses in the penalty area which very often defenders clear in 🛋 corners.</p>

<p>Corners in the late stage of the game are more likely to happen than in
