Shooting stars are occur all the time,

even during the day, but the best time to see one is at night. 6. T

he colors of a shooting star may also indicate the minerals that make up the spa

ce rock. Different elements emit different-colored light when they burn.

There are usually around two shooting stars per hour, but the be

st time to see them is during a meteor shower. This is because there will be man

y more than usual all over the sky. Shooting stars do occur in the d

aytime, but can be seen more clearly in the sky at night.
