In this article, we will discuss:

- What is a handicap?
- When and why to use a handicap?
- An example of a handicap bet
- Consequences of using a handicap
- What should be done, important points and tips

#### • What is a handicap?

In simple terms, a handicap is a type of sports betting where one team starts a game with a disadvantage, such as a goal in football, to level the playing field. This is done with the goal of making the game more competitive and interesting. It is a common practice in sports betting, especially in football, where one team is clearly favored and another is underdog.
