<p></p><p>Step into the world of Fruit Ninja, a casual browser

-based online game that offers classic fruit-slicing fun. The game has

three exciting modes. In Arcade mode, you'll race against the clock to cut

as many fruits as possible and earn points. You have three lives, an

d every fruit or bomb you miss will cost you a life. The game ends wh

en you run out of time or lose all your lives. Cut ice cubes to freeze time and

gain an advantage. Zen mode offers a more relaxed experience with no

countdown, but you still have to avoid missing fruits and cutting bom

bs. For the ultimate challenge, try Frenetic mode, where the number of fruits on

the screen doubles, requiring quick and precise katana skills. Fruit

Ninja has gained worldwide popularity and continues to entertain players with i

ts addictive gameplay.

. Slice and dice a variety of foods while avoiding obstacles.
