<p></p><p>Football corners predictions is one of the fairly ne

w tips offered by tipsters and by us. Some say it's luck £ , predicting corn

ers in a football game, but we at AFootballReport find in corners very profitabl

e markets especially in live events £ , when odds go very high as the game evolv

es.So how do we predict corners? Of course as any other football £ , prediction

and corners are related to a number of pre-match and team factors. First of all

we should see the £ , type of game we're looking for or the type of game we

want to predict. Is it a game with £ , a strong favorite or just two equally str

engthen teams that play. If it's a game with a strong favorite probably £ ,

we should pay attention to the corners race predictions as strong favorites alwa

ys keep the ball in possession more than £ , the other teams and create more cha

nces as they push forward almost during the whole game. Keep in mind in £ , live

 events that if the score is in favor of the favorite team then this team would

not be so £ , motivated to create chances and would probably win less corners th

an in a draw event or from behind.</p>

<p>Second thing we £ , should use when making our corners tips is to see t

he teams   lineups and tactic for the upcoming game. Target £ , teams with more o

ffensive tactics and teams that use wingers heavily in their attacks. For exampl

e, some good wingers for £ , the home team could easily produce more than 10-20

crosses in the penalty area which very often defenders clear in £ , corners.<

/p>

<p>Corners in the late stage of the game are more likely to happen than in

 the early minutes. Usually teams £ , are very careful in the opening minutes of

 a football game and they try to enter the game more passively £ , than aggressi

vely. As the game continues depending on whether a team is losing or winning the

 game is leading to £ , pushing forward and sending more players to attack or de

fend. This leads to significantly increasing the number of corners in £ , the la

st minutes and that is what we want when predicting corners.</p>

<p>Spot derby games. Derby games are always poor in £ , goals, but very ri
