It's a random number generator. Is there any way to predict what number it will choose? The Google random number generator is designed to produce numbers that are statistically random, meaning they should not follow any discernible pattern or be predictable. It uses algorithms and various sources of entropy to generate randomness.

How random is the Google random number generator? Is there any ...

How random is the Google random number generator - ...

Random number generators are typically software, pseudo random number generators. Their outputs are not truly random numbers. Instead they rely on algorithms to mimic the selection of a value to approximate true randomness.
