The game Americans call "Mexican Train" is originally a variation on the Chinese jigsaw game called Pai Gow, which means "make nine", and uses 32 tiles or dominoes. Pai Gow predates the game's introduction to the United States by an estimated 1,000 years. The game was first introduced to the United States by Chinese immigrants in the mid-19th century. It is now a popular game in casinos and is often played in the form of a side bet on the roulette table.
